Re: Motion to Intervene in the application of The Order To Show Cause,
Docket No. W-02497A-06-0580.

From:

I wish to intervene for the following reasons:

Golden Corridor Water Company has not acted as a responsible utility company ever since I have been a customer. The water is contaminated, pressure is always low at best and customer service is very bad.

Golden Corridor has not been financially responsible either and they also have not put funds back into maintaining the system.

Property values are now being affected due to the company and health issues are a real possibility in the future. It is for these reasons that this company should not be allowed to continue to operate under the current conditions.

Sincerely,

George Moya
